

Scratchwork for Lab Reports

1 Complex Envelope Notation

$$x_0[n] = \text{Re}\{e^{j\omega_c n} s_0[n]\}$$

2 Angle of Arrival

$$\theta = \arcsin\left(\frac{c}{d\Omega_c} \angle(s_0[n] s_1[n]^*)\right)$$

3 Carrier Frequency

$$\omega_c = 2\pi \frac{\Omega_c}{\Omega_s}$$
